

Revised Results of Tempo demonstration 23rd August 2009 at WTOC Miskolc using SI equipment

These results have been corrected as far as possible to account for missing or extra 'dibs'. The ### marks generally indicate missing or unknown data, or they indicate a negative time, probably the result of very fast decision making and imperfectly synchronised boxes.

A correction has been made for one competitor who was handed maps in a wrong sequence.

The time penalty for a wrong answer was 30 seconds, on this occasion.

Names assigned to dibbers have now been corrected with all available information but may not be 100% correct

Results using stopwatches are reported separately.
